GlowMart Nigeria Ltd Sales & Inventory Intelligence Report

Resolving the Sales vs. Inventory Conflict

Performance Analysis · 2022 – 2024 · 5 Cities · 4 Brands

Business conflict

Sales claims shelves are empty in Port Harcourt & Kano. Inventory reports equal allocation across all cities. The MD commissioned this report to resolve the conflict with data.

15,000 transactions

90 products

Brand performance by city (₦M)				
City	BrandA	BrandB	BrandC	BrandD
Abuja	40.0	26.4	30.8	36.6
Ibadan	39.1	24.2	26.5	35.4
Kano	40.5	25.2	29.6	36.4
Lagos	36.2	24.6	27.0	33.3
Port Harcourt	44.5	25.8	32.5	38.2
Total	200.3	126.2	146.4	179.7

Brand A leads across all 5 cities with ₦200M total revenue — 37% ahead of Brand B. Port Harcourt and Abuja show the strongest demand for Brand A and Brand D. Inventory should prioritise these two brands in top performing cities.

Customer & Growth Analysis

YEAR

202220232024

Each customer transacts an average of 30 times over 3 years, generating ₦1.3M in lifetime value. However YoY revenue growth is nearly flat, signalling the need for smarter inventory and targeted city-level strategies.

01

Prioritise Port Harcourt & Abuja

These two cities generate the highest demand 141M and 134M respectively. Inventory allocation should reflect actual sales performance, not equal distribution.

02

Double down on Brand A & D

Brand A leads with 200M and Brand D follows at 180M. Stock these brands heavily in top cities to maximize revenue potential and reduce stock out risk.

03

Target 46+ age group

The 46+ segment is GlowMart's largest customer group with 135 customers. Loyalty programmes and premium product promotions targeting this demographic could accelerate the flat YoY growth trend
